South Limburg has a rich religious history. You don't have to search long for religious heritage. Extra special are the basilicas: churches that have been given an honorary title because of their special past or function. This pilgrimage cycle tour takes you past the basilica of Meerssen and other special religious heritage, including the Reformed Church in Urmond, located along the Maas. You also cycle on the cobbled streets of Elsloo, it seems as if time has stood still here! Would you like to discover more South Limburg basilicas? Then cycle the route past the basilicas of Sittard and Susteren .
